

JUST GLEANINGS

SEEK HELICOPTER LICENSE

MONTREAL—A spokesman for a firm, calling itself Dominion Air Transport Co., said last week he had applied to the federal department of transport for a permit to start an air service with eight-passenger helicopters over a 2,000 mile return air route through the Ottawa Valley, Quebec, eastern townships, and Montreal district. He hoped the service would start "in the very near future."

PRICE CONTROL SUCCEEDS

Byrne Hope Sanders, director of the Consumer Branch, Wartime Prices and Trade Board, asserted at London, Ontario, last week that price control in Canada had been more successful than in any other wartime nation. In the United States, for instance, the cost of living has risen by 15 per cent since December 1941, while that in Canada has increased by only 2.6 per cent. In China, moreover, the prices of many commodities have soared by as much as 2,500 per cent.

"HOT DOG" ORDER REVOKED

The Order of the Prices Board, which planned to restrict the manufacture of certain types of bread, rolls (including "hot dog" rolls) and cakes and to eliminate icing has now been revoked. This order was drafted on recommendation of an advisory committee representing the baking industry which subsequently advised that the economy in man-power which the order was designed to effect could be obtained without formal regulation.

A large "thermometer" has been set up on the Carbon post office, under the Victory Loan flag, to mark the risk of bond sales. Put on the heat and drive the "mercury" to the top at the earliest possible moment. In other words, buy Victory Bonds today!

The weather the past few days has been cloudy and cool, with winds from the north. Winter is not far off.

DISTRICT LOSES TWO FARMERS BY DEATH DURING PAST WEEK

Emanuel Bertsch and Walter Zeigler Die

Emanuel Bertsch, 46, of Carbon, died in a Calgary hospital on Wednesday, October 14th.

Born in Ventura, McPherson county, South Dakota, he came to the Carbon district 30 years ago, and has farmed here since that time.

Surviving are his widow, Elizabeth; one son, Walter, Carbon; three daughters, Salma, Norma and May, all at home; his father and step-mother, Mr. and Mrs. Jacob Bertsch, Carbon; four brothers, Albert of Granger, Jacob and Otto, Carbon, and Robert of Hesketh. Five sisters, Mrs. S. Ohlhauser, Carbon; Mrs. R. Neuhauer of Hanna; Mrs. G. Holsinger, Granger, Ella and Hilma of Carbon.

Funeral services for deceased were held from the Presbyterian church south of Carbon on Sunday afternoon at 2:30 o'clock. Rev. E. S. Fenske and Rev. E. Brimmer officiated and pallbearers were Messrs. J. A. Ohlhauser, Jacob Reiser, John Frost, Fred Zeigler, Ed Schell and Emil Metzger.

Walter Zeigler, age 48, died in the Drumheller hospital on Sunday evening, following a short illness. Some time ago he smashed his hand and blood poisoning set in last Tuesday. Thursday morning he was taken to the hospital, but the poison had gone through his system and he died Sunday.

Deceased was born in South Dakota on October 21, 1895 and came to the Carbon district in 1909. He has farmed

The Fifth Victory Loan opened its drive for \$120,000,000 on Monday and the symbol above is the emblem on the Victory Loan flag that is flying over the Carbon Post Office, and will continue to fly until the loan closes in three weeks' time.

VICTORY LOAN DRIVE MEETING WITH FAIR SUCCESS IN DISTRICT

The campaign for the Fifth Victory Loan got under way in Carbon and district on Monday and approximately 20 per cent of the \$52,000 quota was subscribed the first day.

Mr. S.F. Torrance, organizer for this district, reported that up to press time 32,450 had been subscribed to this loan, and that applications were coming in fairly well.

Active campaigning is now commencing all over the district and it is expected that the quota can be reached at an early date if subscribers will come forward and make their applications without waiting to be canvassed.

The following canvassers have been appointed for the Carbon unit: C.H. Nash and Mrs. Milligan; Len Poxon and I. Guttman; S.N. Wright and E.J. Rouleau; John Atkinson, Jas. Gorden, J.J. Ohlhauser, W.H. Ross and Mrs. MacGowan; A.F. McKibbin, S.J. Garrett, A.J. McLeod and Mrs. McLeod.

R. Garrett and S.J. Canning; Leo Brown, E.D. McKellar and Mrs. A. Church.

ed south east of town for a number of years and is survived by his wife, Elsie, two sons, Lawrence and Leonard, and one daughter, Ellen, all at home. Also five brothers, Fred, Jacob, George, Phillip and William of the Carbon district. Three sisters are also survivors, Mrs. Karpas of Carbon, Mrs. W. Metzger and Mrs. R. Guttman.

Funeral services for the late Walter Zeigler will be held from the Presbyterian Baptist Church Thursday (today) at 1:30 o'clock.

UNITED CHURCH CHICKEN SUPPER

The chicken supper and programme of the Ladies Aid of the Carbon United Church, held in the Farmers' Exchange Hall on Tuesday evening, drew a large crowd from all parts of the district, and proved to be one of the most successful undertakings of its kind in recent years. It is estimated that over 400 people were served on this occasion, and the sum of \$165.70 was taken in at the door.

After supper was over a short programme was held, consisting of the following numbers:

"O Canada"
Piano Solo—Mona McKibbin.
Vocal Solo—Mrs. C.A. Crossman.
Tap Dance—Miss Doris Tricker.
Reading—Winona Rouleau.
Piano Duet—Mrs. S.J. Garrett and Bob Garrett.
Vocal Solo—D. Wheeler, Arnie, Doll Dances—Mary Medley, Mary Pines, Margaret Steele, Dorothy Prieb, Mona McKibbin, Winona Rouleau, Lorraine Milligan, Margaret Clayton.
Vocal Solo—Mrs. S.F. Torrance.
The Chorus—"I Will Entail Thee."
"God Save The King."
Mr. Len Poxon was chairman of the programme and Mrs. A.F. McKibbin was pianist for the various musical numbers.

A number of district farmers are in Calgary this week attending the stock show and sale.

CARBON LODGE, 107 A.F. & A.M. HAS 25TH ANNIVERSARY OCT. 11

Banquet and Programme For Members and Ladies

Carbon Lodge No. 107, A.F. & A.M., G.R.A., celebrated its 25th anniversary on Wednesday, October 11th when a banquet and entertainment was held in the masonic hall for members and their ladies. A number of visitors from Calgary and Drumheller were also present to mark the occasion.

The evening's programme opened with a banquet at 7 p.m., when about 90 sat down to a sumptuous repast.

After the supper was over a two-hour programme was conducted under the chairmanship of the present W.M., Arthur H. Hirst of the Lodge, W. Bro. Leonard Poxon.

The following was the evening's programme: Toast to the British Empire: Proposed by R.W. Bro. W.A. Brishier and responded to by Bro. P.H. Steele. Toast to the Ladies: Proposed by Bro. R.H. Hirst and responded to by Mrs. Leonard Poxon.

Toast to the Visitors: Proposed by R.W. Bro. W. Poxon, and responded to by M.W. Bro. Geo. Ellis of Calgary. A number of Calgary brethren and their ladies were present, and they put on the following program:

Piano solo, by Mrs. Nellie Pearce Hamilton. Monologue, by Bro. E. Townsend. Trombone solo, by Bro. W. Gray. Duet, by Bro. Quinney and Bro. G. Ellis.

Quartette, by Bros. Quinney, Hamilton, Ellis and Donaldson. The program was concluded with a number of reels of pictures of the national parks, taken by Bro. Roy Austin of Calgary on his various trips to the mountains.

Carbon Lodge No. 107 was instituted on October 11, 1918, and R.W. Bro. W.A. Brishier was the first Worshipful Master. Meetings were first held in the room above W.A. Brishier's store (now occupied by Mrs. Phillips and family), and the present "Masonic hall" was built in 1929.

Carbon Lodge has had a successful career and is one of the most active lodges in Alberta.

The week of October 11th was marked with a series of events to celebrate the occasion of the 25th anniversary of the Lodge. On Tuesday evening the lodge held its regular meeting, when an address on the history of Carbon Lodge was given by R.W. Bro. W.A. Brishier. Wednesday evening the banquet and programme was held, and on Sunday morning the brethren attended Divine service in Carbon United Church, when Bro. R. Hinchey preached a very appropriate sermon.

Carbon Masonic Lodge is to be congratulated on reaching its 25th milestone.

PROMPT PAYMENT OF YOUR SUBSCRIPTION REQUESTED

This is the season of the year when a large number of subscriptions fall due or are next due. We appreciate the promptitude with which many subscribers are sending in renewals. Neither editors nor publishers have subscriptions sent in promptly. It is the most delicate complaint that can be made the editor and publisher. While the individual subscription price may seem a small matter, when it is multiplied by hundreds it makes a lot of difference in financing and every subscription sent in promptly reduces the task of book-keeping. So let us repeat that prompt renewal of your subscription when it comes due will be sincerely appreciated.

LONG YEARS AGO

October 13, 1932

Demanding certain changes and Union recognition, miners of the Pease River Colliery at Carbon, Alberta, on strike Tuesday and the mine is temporary shut down.

Snow covered the ground last Friday and colder weather is here, but the snow has disappeared.

Red Bus Lines have added an 18-Passenger White bus to their run.

October 20, 1932

Union organizers failed to get mass support from local coal miners and the men returned to work Monday, with no changes being made—and no union.

VICTORY LOAN OFFICE TO BE OPEN FOR COUNTRY PEOPLE

In order to make it convenient for country people to buy bonds in the Fifth Victory Loan an office will be opened in the building next to the Builders' Hardware, and each Saturday afternoon and evening from now until the loan closes some member of the committee will be in charge. At this office anyone in town on Saturday will be able to make his or her bond purchase.

Canvassers who will be in charge of this office include John Atkinson, Jas. Gordon, J.J. Ohlhauser, R. Garrett, S.J. Canning, E.D. McKellar, L. Poxon.

JACOB BUYER TO HAVE AUCTION SALE OCTOBER 29

Another auction sale will be held in the Carbon district on Friday, October 29th, when Jacob Buyer will sell his stock, machinery and household equipment at his farm four miles west and 3 1/2 miles south of Carbon. S.N. Wright will be the auctioneer and terms are cash. See posters for further particulars.

Brown, Mrs. Church, Mrs. MacGowan, Mrs. Milligan and Mrs. McLeod. Any other town members of the committee who can find time are also asked to assist.

TO REFILL THAT VACANT CHAIR

That boy of yours has been gone a long time. He and his fighting comrades are now surging forward to Victory. Help speed that Victory and his return to his place in your heart and home. Every dollar counts. Buy Victory Bonds. Buy them for your absent boy; buy them for your future.

An Empire Council

AS FAMILY TIES ARE FREQUENTLY strengthened in times of distress, so have the bonds which unite the various parts of the British Empire become stronger during the present war. There is no doubt but that the Axis nations were convinced that the Empire would not remain united under the trying circumstances of modern warfare, but contrary to their expectations, even the remotest British possessions have rallied to the fullest support of Great Britain at this time, and there have been magnificent contributions in manpower, supplies and money, from every part of the Empire. Apart from the tangible benefits which have resulted from this demonstration of Empire unity, there has also been cause for great satisfaction for all those who hope to see the British Commonwealth of Nations work as a body in co-operation with the other democratic countries in the post-war world, in furthering wide application of the principles for which we are now fighting.

Would Permit Quick Action

Prime Minister John Curtin, of Australia, whose government was recently returned to power with a decisive majority, has made the timely suggestion, that after the war some sort of Empire machinery should be set up, which will permit quick joint action in matters of urgency. He has emphasized that such an Empire Council would not have executive powers, but would operate on "effective consultant lines." Premier Curtin also made it very clear that this plan would in no way involve the creation of an Empire bloc against the rest of the world, but would be instrumental in permitting a strongly united British Empire to work in close co-operation with the other democratic nations in the postwar years. The British Empire has for many years stood as a living example of what can be achieved through the practical use of democratic principles, and it will no doubt play a very important part in ensuring the application of these principles to the re-building of the liberal nations in the future.

Interest Has Been Aroused

This proposal has aroused interest in all parts of the Empire and has put into concrete form the hopes of many other British Empire statesmen who have looked forward to some specific plan for consolidating the Commonwealth. It is recognized that many complex situations will arise after the war, and a council such as Mr. Curtin has suggested would bring the people of the Empire into closer co-operation in the formation of important post-war policies. Canada, in common with Australia, New Zealand, and other parts of the Empire, has expanded and extended her sphere of influence greatly during the past four years, and after the war our concern with world politics will be greater than it has previously been. Mr. Churchill has on several occasions intimated his interest in bringing the various parts of the Empire into closer association, and there are few people here, or elsewhere within the Commonwealth, who do not desire to see the strengthening of the ties which have bound it together and given it the unique place which it now holds in the history of the world.

HEALTH LEAGUE OF CANADA

As this is the time and the year when tomatoes are inexpensive and plentiful you should be using them daily to provide your family's supply of vitamin C and replace the scarce oranges. To obtain the maximum vitamin C from tomatoes they must be handled with care. Do not leave them exposed to air for any length of time after they have been cut. When cooking tomatoes do not over-cook and serve immediately they are finished cooking.

Because of the great loss of vitamin C during cooking we should use tomatoes raw as much as possible. There are several methods of preparation besides the conventional method of slicing raw tomatoes. As an appetizer you may serve fresh tomato cooking made by serving fully ripe fruit and adding the desired flavoring.

If the tomatoes are to be used in the main course, you will find either stuffed raw tomatoes or stuffed baked tomatoes both different and delicious. Using firm medium size tomatoes cut out part of pulp and replace with a combination of shredded cabbage, carrot, and raw beet mixed with salad dressing. Or you could fill the tomato with cottage cheese, chopped cooked meat and celery or potato salad.

Stuffed baked tomatoes provides you with a great variety of dishes depending on your choice of stuffings.

STUFFED TOMATOES

1 cup diced Bologna 1 cup cooked corn
1 tsp salt 1 egg
3 tsp. bread crumbs 1 tsp. butter

Combine these and add to 6 large tomatoes after you have removed the pulp. Bake in a moderate oven at 350 degrees F. for 15-20 minutes.

In addition to this recipe the tomatoes may be filled with bread or potato dressing; macaroni and cheese; chicken, fish or cheese dressings; or a stuffing composed of minced vegetables and left over meats.

If you wish to feature the tomato in a supper dish, break an egg into the hollow of the tomato and bake 20 minutes at 250 degrees F. You will find this not only delicious but nourishing.

Churchill's Opinion

British Prime Minister Ties Foreign Secretary Something About Age

Before the Quebec conference, Anthony Eden read the descriptions of himself which appeared in the American press. In those dispatches there were references to his graying hair. "At last," said Eden, "they no longer will say about me, the youthful diplomat."

"You're wrong," Winston Churchill corrected him. "Remember, MacDonald, Baldwin, Chamberlain and I. In British politics now, youth begins at 50 and middle age at 70." —New York Post.

Retain Control

Large Measure Of Governmental Control In Britain After The War Ends

A large measure of governmental control over British aces and economic life will have to be retained for a time after the war ends if a national emergency is to be avoided, according to Home Secretary Herbert Morrison.

Morrison warned business men in a speech that Britain will undergo another period of boom and bust, similar to that which followed the last war. If existing wartime controls are lifted too soon.

I GOT RID OF MY CONSTIPATION WITHOUT "DOSING"!

● When we're all doing our best to help win the war now, it's not pleasant to be slowed up physically and mentally by common constipation... the kind caused by lack of "bulk" in the diet. If you're troubled that way, why not get right at the cause instead of "dosing" with purgatives that give, at best, only temporary relief? Here's a simple, "better way" to

prevent constipation caused by lack of "bulk" in the diet. ALL-Bran is easy to eat... grand-tasting as a cereal or in crisp milky puddings... a drink plenty of water. Then see ALL-Bran notice a big difference in the way you feel and look! Get started right away. Your grocer has ALL-Bran in two convenient sizes. Made by Kellogg's in London, Canada.

Roll your owners! Go for Ogden's

In the early days, "Tin Lizards" did not always roll smoothly but old-timers will tell you that Ogden's has a smooth tobacco. Why? Because it is a distinctive blend of choice pipe tobacco—worthy of its famous name—Ogden's. You try it. You'll love it. Ogden's quality for pipe smokers. See it in Ogden's Cut Plug.

SMILE AWHILE

Johnny Brown had missed school. The next day he brought this excuse from his father:

"Dear Teacher: Please excuse John's absence from school yesterday. He fell in the river and got all wet. By doing the same you will oblige."

A policeman, whose evidence was taken on commission, deposed: "The prisoner called me an ass, a pig, a scoundrel, a rascal, a mucker and an idiot." And this being the conclusion of his deposition, his signature was preceded by the formal ending, "All of which I swear is true."

Freshman—Did you hear about old absent-minded Professor Freeman?

Senior—Why?

Freshman—He looked in the directory to find out where he lived and found he couldn't remember his name.

Mistress—Marie, you were entertaining a man in the kitchen last night, weren't you?

Marie—That's for me to say, ma'am. But I tried my best.

"These gloves are about six sizes too small for me."

"Well, you asked for big gloves, didn't you?"

"And did you ever lose yourself in your work?"

"What is your work?"

"Exploiting Central Africa."

"I'd like a couple of hard-boiled eggs to take out," said the young fellow to the girl at the lunch counter.

"All right," replied the waitress with a smile, "but you'll have to wait. Me and Mamie don't get off until ten."

Customer—Did you look at a man's comb.

Salesgirl—Certainly. You wish a narrow mane's comb?

Customer—No, I want a comb for a fat man with rubber teeth.

"And what did you learn in Scripture lesson, dear?" asked mother.

"I read about the Ten Commandments," replied Tommy.

The teacher was explaining to her class what was meant by "Mammy."

"It means," she said, "having two wives at one time. Now, can any boy tell me what word means having only one wife?"

"I can teacher," said one boy; "monogamy."

Chaplain—How could you have the heart to swindle people who trusted you?

Prisoner—But, parson, people who don't trust you can't be swindled.

The doctor was discovered with case and brushes.

"Why doctor, I never knew you painted!" exclaimed his friend.

"Oh, I just do it to kill time," replied the doctor.

"What! Haven't you got any patients?"

The pika, a Rocky Mountain rodent, can throw its voice like a ventriloquist when alarmed.

Our Boys And Girls On Active Service

(By Ottawa Observer)

That was a breath-taking story which the Navy released last night about the Naia trying to seal up Halifax harbor by towing mines like beets in a garden. The men on a minesweeper was Petty Officer Bill Sheard of Belknap, Man, and Lieut. Raimond Gravel of Gravelbourg, Sask. The latter said he found it "awful monotonous and would rather be on convoy work." Imagine, and him flirting with those deadly things all day long.

Saskatchewan will be looking forward to the new C.W.A.C. military band of 29 girls coming out during October, among them being some natives of the prairies. The leader of the band is Miss N. S. Swarich, who for eight years taught school around Vegreville and Camrose, Alta. Teaching was also a pair of sisters, Pies, Isabel and Eva Johnson of Loom Lake, Sask.

There was 25 bright smart lads among a convoy which landed at a British port recently, all from the first class. The lads were the Royal Naval College on Vancouver Island. Some they are now on board on battleships and cruisers. G. L. Hopkins, a Swabian, Sask, and A. Toris, of Westwood, Alta., were in the party. Hopkins has four brothers in the force and his father is Lieut-Col. Hopkins, now back in Canada, who was a D.C. of the last war.

Some of your prairie sons are with the R.C.A.P. in the Aleutians, but, maybe you know little about the chain of islands, the last of which is now the Japanese. The Canadian mainland. The big Japanese island of Paramushiro is 700 miles from Attu, Alaska, believe it or not, is only 500 miles west of Hawaii. The lads have the toughest flying in the world there. But they have had some experience. The PX stores run by the U.S. army are used to them. They get 10 packs a day for 50 cents, 20 packs a day for \$1.00 and a cigar lighter that cost you \$1.00 that you can buy for \$2.50. But no beer, liquor or wine.

Here's a fighting family, the Leightons of Calgary. When daughter Mona, joined up she made the north the family's active service. Her Dad is Staff Sgt. Syd. Leighton.

Newspapermen at Winnipeg found out that Mrs. Guy Simonds, wife of the famous commander of the Canadian First Division in Italy, has real military background. Her grandfather was the first officer commanding Fort Osborne Barracks in Winnipeg, one of the oldest of military establishments in the West.

A Saskatchewan farmer's daughter came in all the way from the north to join up at Regina, but was turned down because she gave her age as sixteen. Was she disappointed.

While haircuts of the men in the white army strictly the same, there was the problem of the CWAC's hairdo, many of whom thought they would like the Veronica Lake style, lounging out from underneath their caps. But that was not the case. Instead they got a smart "feather bob cut" which is pretty well standard.

MAIL IS DELIVERED

A parcel and two letters finally caught up to Former Airmailman Tom Brown of Healey Bar, York-shire, after travelling 50,000 miles in two years. He escaped internment at Singapore and the mail has travelled behind him since.

EMIGRATE TO BRITAIN

Large scale emigration to Britain since war started has partly solved dire unemployment problem. During 1942 nearly 52,000 travel permits were issued, compared to 35,000 in 1941 and 26,000 in 1940.

The average distance of the sun from the earth is 92,000,000,000 miles.

DO YOU KNOW THAT—

The farthest north habitation in the United States is completely surrounded by Canada—can only be reached over land by going through the Province of Manitoba. This is the little community of Oak Island, Minnesota, pictured in the latest Canadian Cameo short produced by Associated Screen Studios.

Firestone Dealers have always been mileage merchants. For 25 years Firestone has devoted much time and money teaching dealers how to help car owners get the most mileage from their tires with the greatest safety and at the lowest cost.

So put the care of your tires—no matter what make—into the hands of your nearby Firestone Dealer today. There is no priority or restrictions on the service and repairs he can give you, and now as always, he is pledged to serve you better than anyone else.

IF YOU ARE ELIGIBLE FOR NEW, USED OR RETREADED TIRES... Please go to your nearby Firestone Dealer first. He is in constant touch with official sources of information, has the forms necessary to secure a tire ration permit, and will do everything he can to assist you.

Junior Farm Clubs

To Fit The Crime

Annual National Competition To Be Held At Toronto, Nov. 22-23

Boys' and Girls' farm club teams, winners of honours in their respective provinces, under the Canadian Council on Boys' and Girls' Club Work, will assemble from all parts of Canada at Toronto on November 22, 1943, to commence a week's program of the annual national competitions. Because of the farm labour situation and the prospects of a late harvest in some areas, the date set is three weeks later than in 1942. At the Royal York Hotel, Toronto, on November 22, but a change has been made with regard to the judging contests. Instead of taking the teams to various farms in the vicinity of Toronto and elsewhere for the judging, all the judging work will be done at the Ontario Agricultural College, Guelph. The main reasons for the change are to avoid use of motor transportation in moving the club teams from point to point, and in view of the late date of season to provide comfortable surroundings for the contests. The teams will travel to Guelph by train. Following the completion of the actual contests on November 23, the remainder of the week will be spent on educational tours, with a visit to Ottawa on November 26.

It is estimated that a beach tree consumes about 50 quarts of water daily.

Within 20 years after the war, the number of automobiles on the roads will be 20 times greater than in 1939 and a constructive program must be inaugurated now there will be "increasing slaughter and mutilation on the road," said Noid Baker, director of the National Bureau of Motor Vehicle Safety.

Victims Of German Brutality Best Fitted To Punish Offenders

A general of the German elite guard was captured by Polish guerrillas, a Berne dispatch reports, tried by a "people's court" and then shot. The general was charged with responsibility for the execution of 100,000 Polish prisoners.

Evidently it will be much more conducive to justice to permit victims of German mass brutality to deal with its authors after the war than to let sentimental Americans or British to do so. And infinitely more conducive to justice than to turn the criminals over to a "reformed" Germany, as was done after the last war when of nearly 1,000 criminal war criminals given even trifling sentences.—Kansas City Star.

MOTORING IN BRITAIN

Within 20 years after the war, the number of automobiles on the roads will be 20 times greater than in 1939 and a constructive program must be inaugurated now there will be "increasing slaughter and mutilation on the road," said Noid Baker, director of the National Bureau of Motor Vehicle Safety.

Mutual Understanding Between The Nations Of The World Is Necessary To Maintain Peace

IN all our attempts to blueprint a future, one striking and significant fact appears. In the past we have been able to achieve a world union on an economic and cultural basis that has been complete and satisfactory, but we have failed lamentably in achieving any durable form of political union. As business men and individuals we have dealt successfully with other individuals. We deal not as nations but as traders, scientists, artists, humanitarians.

International business frowns smoothly on a credit system built on mutual confidence that justified itself. Scientific and cultural knowledge leaped all boundaries. Shakespeare was not the property of England alone. His name belonged to all the world, as Beethoven and Mendelssohn also belonged. The medical achievements of Moscow or Paris or Berlin were freely shared with Detroit or London or Winnipeg. And all this because as individuals we were and are men of good will imbued with a common interest and a common humanity.

But, where we have dealt generously and freely as individuals, because as individuals we could feel each other's heartbeats, when we come to think as nations we let ourselves be diverted by all the paraphernalia of power politics. Instead of good will we substituted suspicion, balances of power and buffer states and all the devious ways of outworn diplomacy.

As individuals we created the thing we wanted—a veritable international economic union that opened new regions and extended the frontiers of the world. In the passage of two centuries we watched the population of the world triple in number, because trading gave occupations, and occupations produced needs for new millions. Now we are faced by the sober and somber fact that either we must achieve also a political union that will safeguard our economic union to operate unhampered, or we must resign ourselves to the fearful destructiveness of a world that will readjust the balance of population and destroy those millions who will be unable to find sustenance in a world of new political rivalries and hates and antagonisms.

Only the other day Mr. Haley, speaking before the Trades and Labor Congress at Quebec, was urging that after the war we in Canada must help to develop trade relations with other countries that may be broke to help other countries that may be broke to trade effectively with us and with others. And in Washington, Brookings Claxton, Parliamentary Under-Secretary to the Prime Minister, was saying the same thing. This is the voice of Canada bespeaking an extension of that economic union which we have found good. But we must go farther than that to a political union, so that sudden war will not again blot out a decade of friendly understanding and economic internationalism.

This is a responsibility that Canada cannot again shrug off. We cannot be complacent over the isolationist attitude of certain groups in Canada, and be critical of similar attitudes in the United States. There is no place remaining in our world for those who will not share the responsibilities of all. Canada has taken a premier place in the councils of war. We must be equally active in the councils of peace, to the end that, in company with Russia, the United States, and the rest of the Commonwealth, we may assure peace in the world—by police methods, and while necessary, by mutual understanding if possible.

We have proven that there is an enormous power in human beings to achieve that on which they set their hearts. We have documented it with our economic union. Now we must assure it by taking the last great step—a mutual union for lasting peace.—From Liberty Magazine.

Supporting The War

What The People Of Britain Have Contributed In War Loans

The total amount of the contributions of the people of the United Kingdom to War Loans, Post Office Savings and other Government funds, from November 22nd, 1929 to August 24th, 1941 is £6,131,273,000 (£67,225,557,000). Of this amount, £48,661,000 (£250,454,840) have been lent to the Government without interest.

THE SCIENTIFIC MIND

Science is nothing but trained and organized common sense, differing from the latter only as a veteran may differ from a raw recruit; and its methods differ from those of common sense only so far as the guardman's cut and thrust differ from the manner in which a savage wields his club.—T. H. Huxley.

Canadian Army Changes

MAJOR GENERAL F. B. PHEASANT, D.S.O., M.C., V.D.

55, of Montreal, General Officer Commanding Canadian in Newfoundland and has been appointed Director General of the Reserve Army. He succeeds Major Gen. B. W. Browne, who is being retired.

MAJOR GENERAL A. E. FOTTIS, E.D.

52, of Saskatoon, who has been appointed General Officer Commanding Military District 2, succeeding Major General C. P. Constantine, who is retiring. Major General Fottis was G.O.C. the 6th Canadian Division.

MAJOR GEN. B. W. BROWNE, D.S.O., M.C.

60, of Ottawa and Vancouver, Director General of the Reserve Army, who is proceeding on leave pending retirement from the Canadian Army.

MAJOR GEN. C. P. CONSTANTINE, D.S.O.

60, of Kingston, Ont., General Officer Commanding Military District 2, Toronto, who is retiring from the Canadian Army.

EASILY ACQUIRED

Hans and Fritz were discussing conditions in Germany.

"Der Fuehrer," said Hans, "has done great work. We now have more living space than ever."

"Is that so?" asked Fritz. "Why—because we have more land?"

"No," was the retort. "Because we have less soldiers."

THE ROYAL NAVY

The Royal Navy's battleships are 60,000 square miles of ocean; it covers half the world's seas. Despite the help from the Royal Canadian Navy and Allied navies, the Royal Navy has to carry the main burden still and this requires great endurance from men and ships.—Ottawa Citizen.

Investigation Is Made Into Use Of Vegetable Oils In Relation To Prosecution Of The War

IN normal times, as shown by the years 1934 to 1938, Canada imported more than 200 million pounds of vegetable oils, mostly from countries now in enemy hands. Since the beginning of the war, many of these oils have been unavailable, but their absence has been considerably offset by the efforts of the Dominion Department of Agriculture to increase, on the one hand, the production of oils that can be grown in Canada and, on the other hand, to increase supplies by the scientific adaptation of certain oils to other uses.

Has To Stay Home

But Even So The Horse Contributes To War Effort

When in Britain last fall the editor of The Farmer's Advocate asked Lieutenant-General McNaughton, Commander of the Canadian Army Overseas, if there would be any use for horses in this war and with a smile on his lips he said it was quite improbable. In the last war, he explained, it required seven or eight men to look after and make use of one horse.

The army is so completely armored and mechanized that the horse has little or no place in modern warfare, although the Russians still use cavalry for special purposes on the Eastern front. In Sicily the Canadians made some use of mules for transportation of supplies over mountainous country, but on all the fronts in this global conflict the horse is conspicuously absent.

It is, therefore, humiliating to this noble steed that an appeal should be made for hair from his mane and tail to be used right at the battle front where the horse is no longer allowed. The hair from a horse's mane is needed to build shock absorbers for army tanks, cushions for army vehicles and mattresses for the men who go down to the sea in ships. The hair from a horse's tail is valuable for making brushes for cleaning guns and the wings of bomber, fighter and transport planes, and for a host of special machine brushes used in war.

Hair from live horses is of the best quality and the Wartime Prices and Trade Board, who do not know how little horses are grazed these days, suggest that two breeds be kept handy, one for the mane and one for the combings from the tail. In this way the combings will be kept in good condition and ready for sale. This humiliating request may seem the end, prove a boon to the horse population. Horse owners who long since lost the curbs and the collars may now dig out these tattered tools and give old cobblers a real hair-do, just as a contribution to the war effort.

At any rate, it all goes to show that the horse is still a factor in modern warfare, and even if he is not seen in the flesh he will be there in man and tail.—From The Farmer's Advocate.

What Adolf Said

From A Speech Made By Hitler On September 30, 1942

Our enemies believe that some sort of expedition lasting nine hours (Diogenes) is an astounding and most encouraging sign of victorious action. If we advance 1,000 kilometers, that is nothing. If we advance to the Danube, that is nothing. If we advance to the Caucasus, if we occupy the Ukraine, if we take in our possession the Soviet coast, if we take 65 to 70 per cent. of all Russian iron, if we get the greatest grain country of the world, if we secure for ourselves the gasoline sources there, that again is nothing. . . . The occupation of Stalingrad, which will also be concluded, will become a gigantic success. And you can be of the firm conviction that no human being shall ever push us away from that spot.

If I had an opponent of adequate scope of real military size—then I could actually calculate approximately where he would attack. But if one has before one military idiots one cannot even guess where they will attack. I can assure Mr. Churchill that . . . regardless of where he will be the next place he will choose, he will be able to speak of good fortune if he will be able to stay on firm land for a mere nine hours. We shall be in the lead with our oldest ally, Italy.

Our U-boats are succeeding beyond all expectations. That will not change.

I can tell the house from today: You may be fully reassured that the entire front, whether in the east, west, north or south, stands unshakable.

Howling monkeys in South America can be heard two to three miles away. 2537

COAL

is AMMUNITION

Use it Sparingly This Winter!

Remember that it is an offence to waste coal or heat. Remember that coal supplies are critically low—and the demand for our war industries is greater than ever.

Plan now to save at least one ton in five. Weatherproof your home—especially doors and windows. Keep your furnace clean from heat-robbing soot. And most important of all, see that home temperatures don't exceed 68 degrees by day and 58 degrees during the night.

Save one ton in five

CARBON'S COAL MINES

"DAUGHTER, HERE'S AN EXTRA BOND OF MATRIMONY!"

"IF YOU SEE ANYBODY LOOKING FOR A GOOD BULL I'VE GOT ONE FOR SALE"

Passing the word along to your neighbors that you have a bull, or a horse, or a hundred bushels of seed oats for sale, is advertising. If you wanted to give your advertising message wider distribution, you'd have it printed in the local paper.

This is exactly what the advertisers are doing in this issue—letting it be known what they have to market.

They can't afford to misrepresent their merchandise, because the news of their sharp practice soon gets around. To continue selling, an advertiser must have a reputation for honest dealing. It is entitled to an honest profit as long as he gives the purchaser his money's worth.

Advertising continues to be useful because it renders a service, both to the seller and the buyer. It pays to advertise . . . and it pays to read the other fellow's advertisement.

ADVERTISE REGULARLY IN THE CARBON CHRONICLE

THE CARBON CHRONICLE

Issued Every Thursday at
CARBON, ALBERTA
Member Alberta Division Canadian
Weekly Newspapers Association
E. J. ROULEAU,
Editor and Publisher

PATRIOTIC BUSINESS MEN

This issue contains a number of advertisements, sponsored by patriotic business men of Carbon, urging you to make the supreme effort and buy Victory Bonds in the New Victory Loan, now being offered to the citizens of Canada.

The loan is not a request for money donations, but a request that you put your savings, now and in the future, into Canadian bonds which will bear a good rate of interest, payable every six months. It is an investment above the average and at the same time you are providing money to help win this war—money that must come from the people of Canada if we are to retain our exchange position in the money markets of the world.

Make the sacrifice—do without the luxuries of life and invest the money in Victory Bonds today!

FIFTH VICTORY LOAN

The Fifth Victory Loan campaign opened on Monday and active campaigning is now under way throughout the Dominion in an endeavor to raise by loan \$1,200,000,000.

Carbon and district has a quota of \$52,000 to reach and every effort will be made to raise this amount.

The money for this huge loan now lies in Canada's banks, on deposit by citizens and companies, and in previous issues it has been estimated that not more than 25 per cent of these deposits were tapped to buy bonds. Within a short period of time it was found that the volume of deposits had returned to the original figure. This is proof that Canada on the whole is prosperous and can easily raise the loan now being offered to the public.

What better place could one put his savings into than Victory Bonds at 3% interest? The security is as safe as any in the world and better than most, and in the whole of Canada's history the country has never failed to pay its bond holders at maturity and the interest in full as it falls due. This record is perfect and can be taken as a guide when buying bonds today.

Buy all the Victory Bonds you can. You will help your country as well as yourself.

CAMPAIGN FOR FARMERS TO TAKE OFF-SEASON WORK

Arthur MacNamara, Director of National Selective Service, today announced a campaign to secure the services of farm workers for transfer to essential industries, during the slack season on the farm. The campaign will be carried out by the Department of Labour, in co-operation with the Provincial Departments of Agriculture.

"To a considerable extent," Mr. MacNamara said, "fuel wood cutting and other woods operations have always depended upon the assistance of workers from agriculture during the fall and winter months, in order to secure their production. Similarly, in some parts of the country, coal mining, base metal mining and fish packing establishments have also, in the past leaned heavily upon the farmer during his slack season. Due to the war, the large numbers of workers available for these seasonal industries have virtually disappeared. Many have gone into the Forces, while others are now steadily engaged in essential industries. In view of this fact, we must depend to an even greater extent upon securing men from the land while they are not needed at home.

Mr. MacNamara said that it was impossible to form a close estimate of the number of farmers sought by industry, but probably it would exceed 100,000 across Canada.

The Department of Labour points out that workers in agriculture who have secured postponement of military training by reason of their occupation, will be allowed to continue on postponement if they accept approved essential employment during the slack season.

"There is no thought of interfering with farm production," Mr. MacNamara explained. "We do not want men while they are still required on the land for autumn work, nor do we want to take away from the farm any man who is needed there for year round work. Nevertheless, there is a substantial margin of men who may be spared during the next few months, and these are the men whose services we wish."

This is Your Country

Your sons . . . brothers . . . sweethearts have gone off to the wars. Off to fight to keep Canada the way it is. You have your part to do. Work for Victory . . . save for Victory.

There is no better way to save than by keeping your money to the government. **Keep Canada yours.**

Buy the NEW War Bonds

Space Donated by the
BREWING INDUSTRY OF ALBERTA

Yes, We'll Do It!

If thoughts of our peaceful Alberta countryside and the contrast of devastation in war-torn, faraway lands does not impress you:

If the freedom available to us arouses no emotion in your breast:

If you do not thrill to the nighty war effort of dauntless Britain, massive Russia, dynamic United States, fiery Australia, gallant New Zealand, South Africa, India and our own great Canada:

Well, then, buy a war bond for the sake of our own Alberta boys who are on the battle line!

They have gone from the far Peace River lands, from the mountains and rolling foothills, the park lands and short grass plains.

They've gone from Pouce Coupe and Bon Accord, Three Hills and Carbon, Veteran and Loyalist, Blackfoot and Peigan, Fort Saskatchewan and Athabasca, Iron Springs and Grassy Lake, Milk River and Battle River, Silver Heights and Mountain Meadow, Hanna and Hilda, Whisky Gap and Rocky Mountain House, High River and High Prairie, Drumheller and Bassano, Red Deer and Elk Point, Cardston and Camanagay, Stettler and Strathmore, Elnora and Rosalind, Chinook and Condon, Azare and Paradise Valley.

They've gone from Grin and Hesperia, Vermilion and Purple Springs, Carleton Place and Havelock, Innisfail and Imhof, Sinks Lake and Lac La Biche, Empress and Throne, Rosedale and Little Gem, Viking and Manyberries, Peacock and Oulshere, Warspite and Maplewood, Westlock and Bowfrost, Bentley and Big Valley, from Edmonton, Calgary, Lethbridge and Medicine Hat—we cannot name them all.

Thousands of farms, every hamlet, town and city have sent their young men. In the air, on the sea and on the land fronts these boys from our own Alberta are fighting bravely with the bravest. They are our boys—our farm boys, town boys, city boys.

Guess we'd better buy plenty of war bonds for the sake of our boys!

FARMERS AND FARM WORKERS

If Your Farm Work has Slackened
for the Winter, You Are Needed
Elsewhere in Essential Employment

Highly essential work—very important in Canada's war effort and for the welfare of the Nation—is threatened with shortages of workers. One of the few sources of men available for other high priority jobs is those men on the farm who will not be needed at home during the Fall and Winter. Heavy needs must be met in many lines—producing vitally essential forest products; in base metal and coal mining, in food processing, in railway track maintenance. If you live on a farm and are not needed at home during the Fall and Winter, you are urged to answer this national appeal.

Farmers engaged in essential work during the off season will be allowed to return home when needed. Also, those on postponement under Mobilization Regulations will continue on postponement while in approved essential work during the slack season on the farm.

Please answer this vital call NOW.

A WEEKLY EDITOR LOOKS AT Ottawa

Written specially
for the weekly newspaper
By JIM GREENBLAT

Capital chili-chat: There are 13,125 bicycles licensed in Ottawa and among the handle-bar riders are Air Marshal "Billy" Bishop, V.C., and members of the Russian Legion . . . Adding to the Hall of Fame in the main central corridor of the Parliament buildings are new bronze busts of Sir Wilfrid Laurier and Sir Robert Borden . . . Some of the refunds to persons who have overpaid income tax are already going out, but some will take time, palpably because each one of the million and a half tax forms has to be assessed and that's none job.

As wages paid to hired farm help goes up, an interesting recap of the Canadian situation comes to us. When the employer provided board for the hired man the average wage for help by the day was \$5.51 in 1941 and \$2.50 the year before. "No board" in 1943 brought \$4.71 as against \$3.15 the year before. Wages for day help were highest in Ontario, but all provinces showed an "up". Current rate of wages for farm help were more than double

that paid in 1940.
Editor's Note—Wages in the Carbon district this year were considerably higher than the Ontario figures.

When the federal minister of agriculture asked farmers to refrain from marketing unfinished cattle during the fall months this year, it was because the expected hog output for the next few months would probably overtax slaughtering facilities. Besides they claim it is an uneconomic practice when there is feed available in the country. Hog marketers will set new records this fall, while it is known that in the first eight months of 1943, beef carcasses dressed an average of 20 pounds heavier than in 1942. This idea makes sense, doesn't it?

They're sure stretching this rubber research but will surely get results. The department was more and more milk used for experimental purposes and will pay 3 cents a pound dry weight, with green and frozen stuff accepted too.

There's a lot more cackling going on everywhere in the country as meat rationing enhanced the importance of poultry. Latest move by the Prices Board gives producers a better price, an increase of 2 cents a pound on all dressed poultry. The mark up of retailer is cut from 9 cents a pound to 3% of selling price, not to exceed seven cents.

A quick glance at the order giving "priority to empty coal bins" requires coal suppliers desire to give priority in coal deliveries to consumers who have less than one-quarter of their annual fuel requirements on hand. This is limited to the one-quarter and applies only to consumers who use less than fifty tons a year.

Facts: We know Canada is a great food producing country, but did you

know that the gross value of our agricultural production has increased from \$1,205,000,000 in 1939 to more than two billion dollars in 1942. Exports of agricultural and vegetable food products, tobacco and its products, animal and fish products, from Canada to the United Kingdom last year exceeded \$235,000,000. As a major source of war materials our export trade last year was more than double that of 1939. Imports on the other hand haven't varied much in the last two years. We have a favorable trade balance right now, nearly as much for the first seven months of 1943 as for all of 1942.

Maybe you don't know how the cost of living bonus is arrived at: 25 cents for each point rise in the cost of living for all adult male employees employed at basic wage rates of \$25 or more a week; one per cent of their basic weekly wage rates for male employees under 21 and women workers employed at basic wage rates of less than \$25 a week. Every employer, except in a few exempted classes, must pay this.

Some 234 members of the Canadian Army have been decorated for gallantry in the field or mentioned in despatches since the war began. Of these 92 were for the campaign in Italy, is an item from the Army public relations. They won 192 decorations at Dierpe, including a Victoria Cross to Lt.-Col. Merritt.

HE WILL NEVER KNOW

Except from a letter to the local Ration Board, taken from Deloraine, Manitoba, Times.
"When I registered my war ration book No. 1, I asked you not to put my age on the front of the book, but just mark it 'legal age'. Now, listen, if 'AGE' appears on the new book, just mark it 'legal age' again. My husband thinks that I am only four years older than he is and he will be very angry if he finds out the truth. I will remember you in my prayers." Friend husband will never know, says the ration board.

Don't brag. It isn't the whistle that pulls the train.

MIXED FARMING IN ALBERTA

Alberta farmers' cash income for the first six months of 1943 totalled \$91,722,000. The largest single item in this income was \$31 million realized from the sale of hogs. Wheat sales came next with a total of \$10 million. The sale of field crops totalled \$29 million as against \$22 million realized from the sale of livestock and dairy and poultry products.

These statistics demonstrate the extent to which Alberta farmers have diversified their agriculture. More than twice the money was realized from the products of what is known as mixed farming than from the grain sales. It should be appreciated, how-

IT'S THE SMALL JOBS THAT MAKE BIG ONES

THE OTHER DAY WE ASKED A MAN FOR HIS PRINTING AND HE TOLD US:

"OH, OUR PRINTING DOESN'T AMOUNT TO MUCH. ALL WE HAVE IS A FEW SMALL ORDERS, AND NONE OF THEM EVER RUN INTO ANYTHING THAT LOOKS LIKE MONEY."

THOSE LITTLE ORDERS ARE THE KIND THAT MAKE OUR BUSINESS.

MOST OF OUR BUSINESS IS IN PRINTING LETTERHEADS, ENVELOPES, CIRCULARS, POSTERS, OFFICE FORMS, AND OTHER SMALL ORDERS.

WE APPRECIATE A SMALL ORDER AS WELL AS WE DO A BIG ONE.

SO, IF YOU HAVE ANY SMALL ORDERS FOR PRINTING, WE WANT YOU TO KNOW THAT WE ARE GLAD TO GET THEM. WE APPRECIATE THEM JUST AS MUCH—AND TAKE JUST AS GOOD CARE OF THEM—AS IF THEY ACTUALLY AMOUNTED TO HUNDREDS OF DOLLARS.

THE CARBON CHRONICLE

ever, that the livestock industry is expanded markets for meat, dairy and based on the ability of Alberta farms poultry products. It should also be understood that the to produce grain to be used as feed.

BE READY for THE VICTORY LOAN SALESMAN when he calls on you

ONE of these days a Victory Loan salesman will call on you who may be well known to you.
He is going to talk to you about saving money. That is all he asks you to do when he asks you to buy Victory Bonds. He will ask you to save money . . . and lend it to your country.
Perhaps you have a son or daughter in uniform . . . a lot of boys from this community are in the fighting forces. You would like to see them at home . . . and you would like that day to come soon. Alright! Here is something that you can do to bring them home . . . and to bring them home sooner. You can save money to buy Victory Bonds. Buy all the Victory Bonds you can. Buy them with cash and with money you have in the bank. Buy more on the savings plan which enables you to pay for them over a period of six months. (Your Victory Loan salesman will tell you all about this convenient plan of saving.)
Help your community over the top in this 5th Victory Loan.
Help Canada to speed the victory . . . and have money saved for things you will need when the war ends.

Speed the Victory

Canada Must Play A Part In Air Age Ahead

WINNIPEG. — "In the air age ahead Canada's outlook should embrace as many routes and services as may be required to maintain her position as the fourth largest trading nation in the world, and must see to it that Canadian air lines play their part in supplementing surface routes by providing essential global air services," C. H. Dickens, vice-president and general manager, Canadian Pacific Airlines, Montreal, told the Winnipeg Board of Trade here.

The pioneer Canadian flyer, now operating head of one of the world's most extensive airlines, was both optimistic and cautious in his word picture of post-war air developments.

With two-thirds of our total population in the east-west zone along the southern border, the existing air lines serve directly only one-third of our people. Another third can readily be reached by a planned system of feeder or local air lines extending to smaller manufacturing and agricultural industries. The system, based on key points, of the present main lines services, would give Canadian business complete air transport service.

"No place in Canada would be more than an overnight flight to any other place, and our independence as a nation would be strengthened."

In his opinion, the airplane or glider would not, in his lifetime, supersede either tires or ships. Last year, he pointed out, Canadian railroads carried 150,000,000 tons of freight while Canadian commercial airplanes carried 5,000 tons. This figure, multiplied a hundred-fold is still a small part of the total tonnage and would not include any bulk commodities, such as grain, lumber or coal.

DEVELOP NEW POTATO

British Columbia Farmer Will Name New Variety The Athlone
SWEETWATER, B.C. — A new variety of potato produced by W. S. Simpson, farmer near this town in northeastern British Columbia, will be named the Athlone, Canada's governor-general has given permission for use of his name.

The potato is an early white variety, oval in shape. It is a firm, mealy cooker. Mr. Simpson developed the new variety in an effort to produce an early plant needed for the short summers in the area.

The governor-general requested that samples of the potato be sent to him.

PENICILLIN A SUCCESS

Being Used In Treating Troops With Severe Infections

ALLIED HEADQUARTERS, Algiers.—Penicillin is being used with great success in treating severe war infections in this theatre of war, the surgeon's office disclosed.

Though arriving in too small quantities for general use, the new drug is being sent to forward areas where it is reserved for specially-selected patients. It has proven highly effective in coping with gangrene.

SHORT OF MEN

Germany Registering 50-Year-Old Men For Military Service

LONDON.—The Germans now are registering 50-year-old men for military service—a stage they never reached in the First Great War—a spokesman for the ministry of economic warfare said.

Men of this class will not be called up at present, he added, but their registration gives plain evidence that Hitler now is scraping the bottom of his manpower reserve.

BURN DOCUMENTS

Says Diplomats At Vatican Are Destroying Confidential Papers

LONDON.—Diplomats accredited to the Vatican are burning confidential papers in fear that the Germans will violate papal territory when abandoning Rome, the Daily Mail said in a dispatch from Madrid.

The story added that even Luigi Cardinal Maglione, papal secretary of state, was destroying documents which would disclose the identity of persons in Germany who have kept the Pope informed of Nazi steps against the church.

Buy War Savings Stamps Regularly.

Going Home Aboard H.M.S. Renown

Prime Minister Winston Churchill, ever an interesting study for photographers was "snapped" on his voyage home from the Quebec conference, aboard the battleship H.M.S. Renown. He is wearing leather car guards, as he watches a gunnery practice.

JAPANESE WEAKNESS

Being Defeated In The Whole Solomon-New Guinea Area
WASHINGTON.—President Roosevelt said he detected signs of Japanese weakness in the whole Solomon Islands-New Guinea area.

Mr. Roosevelt, who also is commander-in-chief of United States forces, briefly reviewed the war situation at a press-radio conference. He said the way the Japanese were being defeated and were retreating in the Solomon-New Guinea area, plus the destruction of great numbers of their transport barges, was proof, in his opinion, of the enemy's weakness in the entire region.

Continuing, Mr. Roosevelt expressed belief that more attention should be given to this factor. The barges of wood and steel, he said, are the only Japanese means of island-to-island transport and great numbers have been destroyed in the past 30 days by Allied air forces.

Some escort vessels also have been sunk, he added.

TO PROVIDE WORK

Men From Prairies May Be Taken To Lakeland Elevator

FORT WILLIAM.—Winter work for 125 farmers from the prairie provinces may be provided at Lakeland elevator where there is an acute shortage of labor.

Grain officials said the men would be recruited by elevator agents on the prairies, and if a plan under discussion is adopted the men would remain here until next spring. They would be engaged in laboring jobs at the elevators.

Under the plan, the men would be provided with free transportation by the federal government.

MAKES ESCAPE

LONDON.—Major Gen. H. B. Klopfer, South African commander at Tobruk who was captured in the fall of that city in June, 1942, has escaped and reached Allied lines after a 150-mile trek through enemy territory. Reuters news agency said in a Cairo dispatch. The dispatch said Gen. Klopfer escaped from Sulmona, 70 miles east of Rome.

Canadian, Designer Of Baha'i Temple

A French Canadian architect, the late Louis Bourgeois, was the designer of this first Baha'i Temple in the western hemisphere. Finished after 20 years in Wilmette, Ill., it will be the centre of an international gathering of Baha'is on May 22, 1944. Baha'is followers emphasize a world faith absorbing all religions and the temple's nine sides symbolize the world's nine chief religions.

Officers Of 14th Canadian Army Tank Regiment

A recently-taken photograph shows officers of the 14th Canadian Army Tank Regiment (Calgary Regiment). Front row, left to right, Capt. S. E. Greenberg, of Winnipeg; Major C. A. Richardson, of Red Deer, Alta.; Major R. B. Taylor, of Calgary; Major R. L. Purves, Calgary; the Commanding Officer, Capt. D. H. McLeod, Vernon, B.C.; Major R. J. Donahue, Oshawa; Lt. D. C. Taylor, of Toronto; Capt. G. W. Hume, Regina; and Capt. D. F. Baker, of Edmonton.

Middle row, left to right, Mr. H. J. Houghton, Auxiliary Services, of Saskatoon; Lt. D. C. Taylor, of Toronto; Capt. G. W. Hume, Regina; Lt. R. D. Butler, of Oungar, Sask.; Lt. A. R. Wells, of Calgary; Lt.

Huge Demands For Food For The United Kingdom

TORONTO.—Huge demands for food for the United Kingdom, Europe and elsewhere mean that Canadians must use food carefully, and "we are not all co-operating" in bringing all possible information on proper use of food to the public," Dr. L. B. Pett, director of the postwar department's nutrition services, said here.

In an address prepared for delivery before the 24th annual meeting of the Health League of Canada here, Dr. Pett said the food rules prepared by nutrition services leave no margin for error, such as would be desirable, but in view of overseas food demands "we cannot provide a margin for error—we must insist on a careful use of food."

The right use of food had been widely publicized "just in time," because current demands for it were "making people in Ottawa very worried."

The food rules recently had been denounced as "thoroughly pernicious" because they advocated "slightly more food per person than some officials would like to make available to civilians." In view of needs elsewhere.

The nutrition division of the postwar department was established about two years ago, and though progress has been made in the nutritional field "we have still not achieved much real indication in this effort," said Dr. Pett.

SHIP GRAIN TO INDIA

LONDON.—Britain will dip into her grain supplies to help relieve a famine in Bengal, in India, Lord Woolton, minister of food, said. Reporting that arrangements were completed for diverting foodstuffs to India, Lord Woolton also advised Britons to expect a scarcity of fresh vegetables this winter.

Invading General

Lieut.-General Mark Clark, commanding general of the new 10th Army, is snapped by Stan Schulman, International News Photos Pool photographer, on one of the invasion vessels en route to Italy.

WILL RETALIATE

Says Japanese Will Be Made To Pay For Bombing Allied Aviators

WASHINGTON.—The United States will call to account after the war the Japanese responsible for heading an Allied aviator—an act which President Roosevelt said shows Japan's lack of civilization.

Asked for comment on the release by Gen. Douglas MacArthur's headquarters of a captured Japanese diary which described the killing, state department officials cited the note sent to Tokyo last April 12.

This note, transmitted through the Swiss government, protested the execution of some of the American fliers who fell into Japanese hands after the bombing of Tokyo. It warned the Japanese government that for this and any other "acts of criminal barbarity" against American prisoners the United States government "will visit upon the officers of the Japanese government responsible for such uncivilized and inhuman acts the punishment they deserve."

AVOIDING NAZIS

Thousands Of Frenchmen Are Living In Alps Or Pyrenees

ALGERIES.—Interior Minister Andre Philip of the French Committee of National Liberation said that on the basis of reports from the underground there are more than 200,000 Frenchmen living in "illegality" in the Alps or Pyrenees after fleeing to avoid deportation to forced labor in Germany. Forty thousand Frenchmen have been executed by the Germans up to March, 1943, he said.

PRaise For Canada

LONDON.—Inspired by Canada's war effort, Lord Beaverbrook's Evening Standard devoted its entire editorial column to telling its readers of the Dominion and her great contribution which is "a source of pride and emulation of all the Allied powers."

Balkans May Be Meeting Ground For The Allies

LONDON.—The Balkans, a possible future meeting ground for victorious Soviet, British and American armies, began to shape up as an important subject for discussion at the forthcoming three-power conference in Moscow.

A Stockholm report that the American Lt. Gen. George S. Patton is in Italy preparing for a Balkan invasion, was carried by Reuters news agency.

In addition, disclosure of the make-up of the American and British missions to Moscow underscores the Balkan and the military aspects.

In the delegations will be outstanding experts of the United States department of state and the British foreign office on central European affairs. On the American side will be H. Freeman Matthews, head of the European division of the state department, and on the British will be William Strang, who supervises the European division of the European and the French departments of the foreign office.

Gen. Sir Hastings Ismay, military deputy secretary to the war cabinet who has accompanied Prime Minister Churchill to his conferences in the United States, said Canada this year will be a member of the British Moscow mission.

Speculation was heard in London that Gen. George C. Marshall, United States chief of staff, might travel to Moscow with Secretary of War Claude A. Bissell, and American Kingpin in the military talks.

It has been known here for several days that military developments, moving westward from the Balkans, and in Italy, had made necessary joint Anglo-American-Soviet military talks.

Also sitting as an American delegate will be W. Averell Harriman, newly named ambassador to Moscow. There was a possibility he might not present his credentials to the Kremlin until after the three-power meeting so that he could attend to the delicate role as an ambassador.

It is expected here that Hill will be the chief American delegate, despite absence of a formal announcement from Washington, and it is known that the United States mission are in the state of at least 10 others in addition to Harriman.

Foreign Secretary Anthony Eden will head the British mission.

Making Plans For The Empire Air Conference

LONDON.—Arrangements for the forthcoming empire air conference are in the hands of Lord Beaverbrook, newly appointed lord privy seal, and final plans are expected to be completed soon for the meetings which are to be held in London.

Representatives of Britain, Canada, Australia, New Zealand, South Africa and India are scheduled to attend the consultations, out of which it is hoped will emerge an empire post-war commercial air policy to be used as a basis for discussions with the United States, Russia and other United Nations.

Monsieur, Prime Minister Jan Christian Smuts of South Africa, reached London for consultations with the dominion office. While here he was met with the war cabinet.

The Evening Standard said it should not be assumed that Prime Minister Smuts is the first arrival for the conference of dominion representatives, mentioned in his speech by Prime Minister Churchill. That meeting is unlikely to be held until early next year. The Standard said.

It was understood there is a good chance the South African government leader will visit the United States—and possibly also go to Canada—but his associates said nothing definite has been decided.

CBC APPOINTMENT

TORONTO.—Rupert Caplan, of Montreal, has been appointed to the newly-created post of supervisor of production of the Canadian Broadcasting Corporation. It was announced recently.

Anthony Eden, British foreign secretary, has represented the signing of Warwick and Leamington in the House of Commons since 1923. 2537

CLEVER DIPLOMAT

How Young American Averted Attack
On Limer Queen Mary

The Washington Merry-Go-Round of Sept. 28 said: John Hubner, the young diplomat who saved Queen Mary with around 10,000 American troops on board, has just resigned. His resignation illustrates one of the fundamental problems in keeping an alert American diplomatic service—marriage to foreign women.

In this case Hubner, is marrying the niece of the Archbishop of Sao Paulo in Brazil. To do so, the State Department has told him, he must resign.

This means the loss of a man with many years experience, also one who proved himself especially quick-witted in a major emergency.

More than a year ago, the Nazi radio announced that the Queen Mary, crammed with U.S. troops, was sunk off Brazil. From the War Department came complete silence. In order not to play into the hands of the propaganda makers, no word of explanation was given as to what actually had happened to the Queen Mary. There was a good reason for this. Here is what happened.

Up in Sao Paulo, central state of Brazil, the State Department's John Hubner had discovered that a large radio transmitter had been imported by the German firm of Siemens & Co., and was being held for delivery to a purchaser. The address of that purchaser was phony and probably the none also.

So Hubner had the efficient Brazilian police watch the Siemens store night and day to see who might take delivery of the radio transmitter. No one came. Finally, one evening at 6:45 just before the store closed, a German picked up the radio transmitter. He was immediately arrested, subjected to strict cross-examination, and after many hours finally broke down. He disclosed the names of his confederates, together with the location of a Nazi radio station in the hills above Rio de Janeiro.

Hubner, working with the co-operative Brazilian police, immediately rounded up the gang, and flew to Rio where the radio station was seized—just as it was sending out a message to Nazi submarines regarding the sailing of the Queen Mary.

It had been a perfect Nazi trap. The Queen Mary had put in at Rio for fuel and supplies. She was too big to hide. Nazi agents in Rio learned her sailing time, discovered her route and dashed this lurking U-boat.

So sure was Berlin of this setup, that it actually announced the sinking of the Queen Mary to the world. What the Nazis did not know was that Hubner and the Brazilian police had seized their radio station, and that the course of the Queen Mary immediately was changed.

Last month Hubner asked the State Department for permission to marry a Brazilian girl. His request was refused. He resigned.

"Tiniest" Wheel

There's lots of room on that wheel for someone else to sit, Joyce. One at a time, please, men. Joyce is the daughter of Lawrence Marchant, chief aeronautical engineer at Victory Aircraft, Malton, Ont., and this picture was snapped during a great "open house" preview of the first Canadian Lancaster, at which 10,000 people came to look and dance and celebrate with the Victory aircraft workers. The wheel shown is the Amazon landing wheel which for dramatic comparison is about the same size as the Lancaster's tail wheel.

Pirates Might Envy These Airmen's Armory

Entertainment is limited for Royal Canadian Air Force men stationed at isolated outposts in the Aleutian islands, and every airman has plenty of time to develop a hobby. Here is the fruit of one spare-time occupation—a collection of fearsome knives, fashioned from scrapped aircraft parts. It's a profitable hobby too—the makers find a ready market for their products among fellow airmen. In the group here, left to right, are LAC Bill Hinks of Vancouver, LAC Stan Hosen, Toronto, Cpl. Arnold Coonan, Stratford, Ont., LAC Wilbur Sommer, Ottawa, and Cpl. John Milne, Vancouver.

Money For Evacuees

Allowances For Mothers And Children In Canada And U.S. To Be Increased

The British treasury announced an increase in the scale of remittance to mothers and children evacuated to Canada and the United States. The new limits will be £10 (\$45) monthly for children and £20 (\$90) for adults, compared to £8 and £10 at present.

The campaign for allowing more money out of Britain for the upkeep of these children—most of whom were sent across the Atlantic in 1940—was raised again in the House of Lords the first day of the peers' alert after the summer recess.

Many of the lords participating in the debate have children overseas and they were among the most critical of the government's policy of allowing £3 a month for a child and £10 for an adult. Lord Morris, whose wife and four children are in Canada, said: "There are many Americans and Canadians who regard us as a nation of pikers who do not pay our debts."

The strip of water between Florida Island and Malaita, in the Solomon Islands, named "Indispensable Strait."

The water level in the Great Salt Lake in Utah varied more than 18 feet between 1851 and 1940.

China Stands Firm

Will Not Consider Any Peace Terms Offered By Japan

Official news that Japan is making peace overtures to the nation she first attacked and plundered comes from T. V. Soong, China's Foreign Minister. Indeed, the Tokyo Government has been bombarding Chungking with peace offers, the first arriving shortly after the attack on Pearl Harbor. Since then the Japanese have raised the ante with each successive offer, until now they "promise" to vacate all Chinese territory except Formosa and Manchuria.

The basic pattern of each offer is the same. For China the price of peace would be more war—on Japan's side. She would have to pledge herself to join Japan in a "racial" war against the "victims" nations, with of course, the shining but temporary exception of Germany. So Japan, which before betraying us at Pearl Harbor, assumedly beseiged the United States to betray China, now finding herself outmarched in the long test of a world struggle, begs China to betray her allies.

China is no turncoat. Her answer to such offers is that she will accept no terms from Japan except unconditional surrender. Thus far she is the only nation to receive peace proposals. But she will not be the last. As the war goes on, Japan is certain to try to copy Hitler's strategy and to use the wiles of diplomacy in an effort to divide the nations which are bent on her destruction as a military power.—New York Times.

Brave Action

Gurkha Officer Of The Indian Army Wins The Victoria Cross

Hurling grenades covered in his own blood, a Gurkha who never before had been under fire led a successful attack on a hill position in Burma against almost insuperable Japanese odds—and won the Victoria Cross for bravery and leadership.

His decoration was the 7th V.C. awarded in this war and the seventh Indian army V.C.

Havildar (Sgt.) Gaje Ghale of the 5th Royal Gurkha Rifles, shouting the Gurkha battle cry, led a platoon of young soldiers in attack after attack until a strong enemy key position in the Chin Hills was carried. The action occurred last May.

The feat, which was accomplished along a bare, knife-edge hill, swept by heavy fire, stopped a Japanese advance. The platoon then held the position in spite of intensive fire. The citation, announced in the London Gazette, noted that Ghale was wounded in the arm, chest and leg by an enemy grenade, but "without pausing to attend his serious wounds and with no heed of the intensive fire from all sides, Ghale closed in his men and led them to close grips with the enemy, when a bitter hand-to-hand battle ensued."

The citation continued: "Inspired on by the irresistible will of their leader, the platoon carried the hill. . . Inflicted very heavy casualties on the Japanese."

Ghale now has been promoted jemadar (2nd lieutenant).—

The chief producers of antibodies in the world are Great Britain and the United States

Had Clear Conscience

FOR MANY YEARS

Belgian Soldier Who Was Shot By The Gestapo

"Dear Mother—I have still eight hours to live. . . I have struggled to the end for my ideal."

Victor was a soldier. He was 27, and lived in a little Belgian village on the River Meuse.

His father was manager of a factory there—till the Nazis took him away one night and later reported him as "lost."

Victor was a firm anti-Fascist. From the day the Germans marched to the village he fought them, knowing full well what the end would be. For one year, two years, nearly three years he managed not only to defy but also to evade the Germans. He bombed; he shot; he damaged; he destroyed.

But then the day came when the ugly hand of the Gestapo fell on his shoulder.

He had been preparing for that day. He did not flinch.

The text of the letter he wrote to his mother, just before they took him out and shot him, has just reached London through secret channels.

"Dear Mother," he wrote: "It is now exactly three days since I was sentenced to death with three months' grace. I have still eight hours to live. I am spending these last moments in the company of my friend, Raymond, with whom I have been fighting and with whom I am going to die."

"It is hard, I know—the loss you are going to suffer is a great one—but it will not be in vain, for I shall have the satisfaction of dying with nothing on my conscience. I have done my duty to the end."

"I should certainly have liked, dear mother, to spend more lovely years with you. But we can do nothing about that now. The die is cast. It is all over."

"You must bear up valiantly and feel proud of the manner of my death, because it will be a soldier's death."

"Be once again, mother, I ask you to be full of courage."

"Remember, too, that you are not the only one afflicted in the same way, and that the sacrifice offered by thousands of mothers will soon bear abundant fruit. I send you my best love and ask you to give my love to those I know."

On Sundays now in the little village church can be seen four sorrowing women—Victor's mother, his two sisters, and his young widow. They are sad as they sit there. But proud and confident.

More confident by far than the Gestapo officers who still strut—but for how much longer?—in the village street outside.

OPINION OF A DANE

A disgusted Dane mounted the speaker's platform at a meeting in Copenhagen and said:

"There's one thing I'd like to say: If it had been the Lord's intention that the Germans ought to run the world, then He would have provided them with enough brains to do it."

Ways For Warmth

That old adage "you can't have your cake and eat it" has changed during these war days to "you can't have your coal and burn it." Canadians will want to make certain of getting all the heat possible from the coal they burn during the next six months. Warm air registers and cold air return grills should never be obstructed with rugs or furniture. The young housewife in the picture above knows that unless they are clear, the free circulation of air cannot take place.

Exhibit Of Paintings

Canadian Scenes Are Now Being Shown In Australia

By courtesy of the Australian department of information and federal parliamentary authorities, an exhibition of prints and paintings by Canadian leading artists now is on view in Canberra parliamentary house.

The exhibition was planned by the National Art Gallery of Canada and arranged by Hon. T. C. Davis, Canadian high commissioner. It is expected the exhibition will later be shown in Sydney, Melbourne and other Australian state capitals.

Singapore's cathedral is built on a foundation of ground shells, sugar, and whites of eggs. The resulting mixture is stronger than granite.

TOWN AND COUNTRY PERSONALOGRAPHS

—FOR SALE in Carbon, two-roomed house, 27x15, \$150 cash includes outbuildings. Apply to E.G. Buterman, Lethbridge, Alberta.

Mr. and Mrs. Harley Davidson and Donna of Drumheller spent Sunday in town.

Pilot Officer Cliff Bender, of the R.A.A.F., came down from Edmonton Saturday and visited at the home of Mr. and Mrs. Leonard Poxon over the week end. He left Monday and will visit in New York before embarking for overseas duty.

Mr. and Mrs. Hill of Calgary were Sunday visitors at the home of Mr. and Mrs. C.A. Cressman.

Mr. A. Hay and son Stewart were Calgary visitors last Thursday.

A meeting of the Vestry will be held immediately after the service at the Anglican Church on Sunday evening.

The draw for the house being raffled off in Calgary in aid of the Greek Relief Fund, will take place on December 28th.

—FOR RENT—Section of land near Carbon, One-roomed house. Man with equipment. Box 64, Carbon.

Mr. and Mrs. Leonard Poxon attended the graduation of their son, Francis, at No. 2 Observer School in Edmonton last Friday. Francis secured his commission as Pilot Officer and is now visiting in Carbon, prior to leaving at the end of the month for eastern Canada.

The large barn on the Charlebois farm burned to the ground last Friday morning. The left of the barn had been filled with hammered feed the previous day and it is believed that a spark from the hammer mill may have started to smoulder, breaking out the next morning. Barn and feed were a total loss.

We are informed that Mr. Schultz has accepted a position as bookkeeper with a mine at Drumheller and takes over his new duties early in November. Mr. Gottlieb Schell has been appointed agent of the Midland & Pacific Grain Corp. at Carbon to fill the vacancy.

GEORGE BATHO

Veteran western horticulturist and agriculturist, is CBC's Prairie Gardener, heard Sundays at 9:15 a.m. M.P.D. As a former editor of publications for the Manitoba Department of Agriculture and a practical gardener with half a century of experience behind him, Mr. Batho speaks with authority in advising the victory gardeners of the prairies.

FARM FOR SALE

TENDERS marked 40648 addressed to the Clerk of the Supreme Court, Court House, Calgary, will be received up to 11 o'clock in the forenoon of Saturday the 13th day of November, A.D. 1943 for the purchase of Section 25, in Township 29, Range 23, W.4th Meridian, Alberta, containing 628.86 acres more or less, subject to the reservations contained in the existing Certificate of Title thereto.

The property is situated about 15 miles from Carbon, and there are 455 acres under cultivation, and there are situated thereon the following buildings: house, barn, implement shed and other out-buildings.

Terms of Sale: 5% with tender, 45% on acceptance of tender, 25% in one year and 25% in two years from the date of acceptance with interest at 6% per annum.

Possession will be given on March 1st, A.D. 1944.

In all other respects the standing Conditions of Sale will apply.

Tenders must be accompanied by marked cheque for 5% of the offer which will be returned in the event of non-acceptance. Envelopes to be marked "Tender". No tender necessarily accepted.

For further particulars apply to Ballachey, Burnett, Hoselittle & McNeill, Solicitors, 709 - Lancaster Building, Calgary, Alberta.

DATED at Calgary, in the Province of Alberta, this 27th day of September, A.D. 1943.

5TH VICTORY LOAN

THE CARBON TRADING COMPANY

I. Guttman, Prop. :: Carbon, Alberta

THE WORLD OF WHEAT REVIEWED WEEKLY BY MAJOR H.G.L. STRANGE

PARITY AT LAST

Thirteen years ago the Searle Grain Company designed the Searle Index in order to keep account of the cost of the many things that prairie farmers have to buy for living and production. (1913-14 is used as a base). It was felt that at the very least the products of our prairie farmers would have to have a purchasing power at least equal to 1913-14 if farmers

were to operate with even a small profit. At long last this 1913-14 parity has arrived not only for wheat, but for oats, barley, linum and rye. Hogs are still somewhat under parity price. It is not pretended that these present prices give our farmers any considerable profit. It merely means that our prairie farmers are about as well off now as they were in 1913-14. The hourly wages of industrial labour if they should occur,

on the other hand average 67% higher than the 1913-14 parity. It is to be hoped, therefore, that the Government now that they have set somewhat of a ceiling on agricultural prices, will be courageous enough likewise to maintain ceilings on the hourly wages of industrial workers, so that the cost of the things farmers have to buy will not increase further. The Searle Index will continue to show such increases if they should occur.
